Tamjid Hossain

Full Stack Web Developer

Experienced Full Stack Web Developer with a proven track record of designing, implementing, and maintaining complex web applications. With a strong foundation in both front-end and back-end technologies, I bring a holistic approach to development that focuses on creating seamless user experiences while ensuring robust functionality. My proficiency in a wide array of programming languages, frameworks, and databases allows me to adapt and excel in dynamic and collaborative environments. Adept at translating project requirements into scalable, high-performance code and integrating third-party APIs to enhance functionality. Committed to staying up-to-date with industry trends and best practices to deliver cutting-edge solutions. Strong communicator and problem solver, capable of working independently or as part of a team to meet project deadlines and exceed client expectations.

Work History

2022-07 - Current

Full Stack Web Developer (Remote)

Reindeer, New York

- Maintained complex technology infrastructure and collaborated with product team to implement new features and strategically plan for future products.
- Developed efficient and maintainable software according to business objectives and needs of clients.
- Developed unit test cases for testing and automation.
- Analyzed existing software implementations to identify areas requiring improvement.
- Liaised with rebranding experts to optimize websites for increased conversion rates.
- Developed functional databases, applications and servers to support websites on back-end.

2021-03 - Current

Web Developer (Remote) Part-Time

Shelbourne Accountants, Dublin

- Consulted with engineering team members to determine system loads and develop improvement plans.
- Adjusted design parameters to boost performance and incorporate new features.
- Resolved problems, improved operations and provided exceptional service.
- Eliminated downtime and maximized revenue by providing top project quality control.
- Completed paperwork, recognizing discrepancies and promptly addressing for resolution.
- Developed and implemented performance improvement strategies and plans to promote continuous improvement.

2019-07 - 2020-12

Web Developer (Remote)

TSMLABS, Los Angeles

- Consulted with engineering team members to determine system loads and develop improvement plans.
- Managed milestones from initial steps through final delivery.
- Adjusted design parameters to boost performance and incorporate new features.
- Reviewed code, debugged problems and corrected issues.
